

Queue

A simple application showing how a Queue works.

enqueue

Some Value

deque

front

isEmpty

size

--	--	--	--	--	--	--	--	--	--	--	--	--	--	--	--	--	--	--	--	--

Queue

A simple application showing how a Queue works.

click

enqueue

zafer

deque

front

isEmpty

size

3	2	1	0																	
---	---	---	---	--	--	--	--	--	--	--	--	--	--	--	--	--	--	--	--	--

should add at the tail of the queue, with the value given at the input, if no value is given, the index should be used as value

Queue

A simple application showing how a Queue works.

enqueue

click

deque

front

isEmpty

size

zafer	3	2	1	0																
-------	---	---	---	---	--	--	--	--	--	--	--	--	--	--	--	--	--	--	--	--

should remove from the front of the queue

Queue

A simple application showing how a Queue works.

enqueue

deque

click

front

isEmpty

size

zafer	3	2	1																	
-------	---	---	---	--	--	--	--	--	--	--	--	--	--	--	--	--	--	--	--	--

Animation, should blink for a second or two

Queue

A simple application showing how a Queue works.

enqueue

deque

front

click

isEmpty

size

zafer	3	2	1																	
-------	---	---	---	--	--	--	--	--	--	--	--	--	--	--	--	--	--	--	--	--

Queue

A simple application showing how a Queue works.

enqueue

isEmpty

size

Queue state

Queue is not empty.

OK

zafer	3	2	1																	
-------	---	---	---	--	--	--	--	--	--	--	--	--	--	--	--	--	--	--	--	--

Queue

A simple application showing how a Queue works.

enqueue

deque

front

isEmpty

click

size

zafer	3	2	1																	
-------	---	---	---	--	--	--	--	--	--	--	--	--	--	--	--	--	--	--	--	--

Queue

A simple application showing how a Queue works.

enqueue

isEmpty

size

Queue size

Size is 4.

OK

zafer	3	2	1																	
-------	---	---	---	--	--	--	--	--	--	--	--	--	--	--	--	--	--	--	--	--

Ayrıca dikkat edilmesi gerekenler:

- 1) Olabildiğince animasyon kullanmaya çalışın (jQuery animation)
- 2) Queue doldugu zaman, enque yapilamasi lazim
- 3) Queue bos iken deque yapilamamasi lazim
- 4) Queue yapisini model olarak olusturun
- 5) Kodunuzu mantikli dosya ve objelerine ayirin, Stack örneğinde isledigimiz gibi.
